Specifications

Super Light

Feelite™ technology produces remarkably light, resistant and comfortable footwear.

Shock Absorption

The special design helps to reduce the occurrence of micro-lesions in tendons, bones and joints, and the feeling of tired legs.

Antistatic

Promotes the dissipation of accumulated static electricity.

ESD

Protects objects and electronic equipment's you work with.

Upper Liquid Protection

Avoids the entrance of liquids inside the shoe.

Closed Heel

Additional support for the moments that require extra agility.

Washable

The footwear can be machine washed up to 50°C.

Antislip SRC

The sole is designed to reduce the risk of slipping.

Extra Protection

Absence of ventilation holes avoiding the entrance of speck to the interior of the footwear.

Fuel Oil Resistant

Rubber track does not lose properties in contact with oil and hydrocarbons.

Materials and Technologies

SECURLITE is made with **Feelite™** technology. Whose material is non-toxic and provides comfort because it is super light.

The geometric design and the exclusive chemical formula used in the production of the rubber track of **SECURLITE** outsole, provides excellent adherence to the ground, reducing the risk of slipping. **SECURLITE**'s Evergrip™ outsole accomplishes SRC antislip level.

Technical Standard

CE
Regulation (EU) 2016/425.

Care and Cleaning

Wash: Machine washable up to 50°C. Larger dirt particles can be scrubbed with a soft bristle brush with water and detergent.

Dry: Wipe with a dry cloth or leave to dry at room temperature, in the shade and away from heat sources. Never dry directly in the sun as heat damages the material, colour and texture.

A soft cloth is the main ally of this type of shoe and its cleaning should be done weekly or whenever necessary.

Attention

SECURLITE will withstand several washes at 50°C in the washing machine. The use of bleaching agents during 50°C machine wash cycles is not recommended.
